

RPA Unit Manager

Who we are:

Recce smooths the path to qualitative and valuable software applications and works towards a lean-, incremental- & flexible approach, starting from a proven systemized basis, converted into tailor-made integrated processes for our clients. It is located in Kontich, near Antwerp and is part of the Diversity-cluster of the Cronos Group. Most of our clients are located in Flanders and Brussels and our consultants deliver top notch quality at our clients-site.

The team wants to expand its services with process automation and RPA. Therefore, we're looking for an experienced RPA & process automation engineer, with vision and entrepreneurial skills. You will be given the opportunity to build your own unit, in collaboration with the Recce unit managers (b.ignited, M2Q and Slingshot).

Your tasks:

- You will set up your specialised RPA unit and work out a business and financial plan;
- Evidently you will build your brand, underneath Recce, and set up the strategy;
- You keep watch on all developments on the market to be on top of things;
- Through your vision you can easily sell the services of your unit;
- You will advise clients with their process automation needs and close the deals;
- You are a real coach and you will build a strong team and follow up on them accordingly;
- You will report directly to the Recce managers.

What you've got:

- You've got experience with one or more RPA tools (Automation Anywhere/ Blue Prism/ UiPath/ ...);
- Process Mining and process flows are known to you;
- AI or machine learning interests you and you preferably already have experience in it;
- You are accustomed to work Agile (SCRUM or Kanban);
- You've got experience in DevOps Tools for CI/CD and Cloud:
 - Jenkins CI/CD and/or Bamboo
 - AWS, google cloud and/or Azure
 - Git, Jira, ...;
- Of course, you have a natural flair and commercial abilities and a knack for leadership;
- And last but not least: you are very fluent in Dutch (spoken and written), English and French.

We are offering:

- You will become part of an enormous Belgian concern -CRONOS- but with the agility of

a SME.

- You will be given the opportunity to build something from scratch according to your vision in collaboration with the other team managers.
- You will receive a competitive salary with all legal benefits such as a car, laptop, group and health insurances, ... (a daily rate should you be freelancer).
- You will be working in a no-nonsense environment.
